Reporting with SmartAnalysis

SmartAnalysis has been designed to make managing your compliance easier. SmartAnalysis uses your analogue and digital tachograph data and presents valuable information in simple reports to help you get the full picture on drivers' hours, working time regulations and much more. There are over 100 standard reports available so you are certain to find what you need. The search facility makes it easy for you to find the ones you need quickly and your frequently viewed reports can be added to a *My Favourites* Group.

The extensive range of reports is arranged into groups for your convenience.

These include:

- My Favourites
- Depot
- Driver e.g. driver card submissions
- Vehicle e.g. vehicle unit submissions
- Infringements
- Speed
- Working time directive (WTD) and drivers' hours law

Retrieving reports

You can run a report any time on SmartAnalysis, simply select the report type and criteria and click *Run.*

You can subscribe to any reports and have them emailed direct to you so that you have the information you need at your fingertips when you want it.
