

Ensure compliance with drivers' hours rules and tachograph regulations with Smartanalysis and SmartAlerts.

Smartanalysis is the industry-leading digital and analogue tachograph analysis software for road transport compliance. Get automatic **email** or **text** alerts to any issues that may need immediate attention with the SmartAlerts feature.

## SmartAlerts

### **Driver Card Not Downloaded**

When at least one driver card that has not been downloaded within the specified red\* flag period

### **Driver Card File Pending**

When at least one driver card download has been waiting in the pending queue (for pre-processing) for at least 7 days

### **Driver Card Download Warning**

When at least one driver card that has not been downloaded between the specified amber\* flag and red flag period

### **VU Download Warning**

When at least one vehicle that has not been downloaded between the specified amber\* flag period and red\* flag period

### **VU Not Downloaded**

When at least one vehicle that has not been downloaded within the specified red\* flag period

\*Red and Amber flag values are taken from the **DTCO Driver Card Submission** and **DTCO VU Download Submission** reports (if configured).
